

CUT PRICES ON SHOES

Our present stock of shoes must move to make room for spring goods. While there is no old stock in our store we are determined none shall accumulate. Therefore we have marked down prices from

10 to 40 per cent

It will pay you to buy shoes at our store, if you have to save them for future use

Of the five republican senators who bolted from the national convention in 1896 Dubois of Idaho has been succeeded by a populist and Cannon of Utah and Mantle of Montana will be succeeded on March 4 by democrats. Of the two remaining in the senate the term of Pettigrew of South Dakota expires in 1901, and his only chance for reelection (quite small) is as a populist. Teller of Colorado is the only bolter strong enough to maintain himself in the senate.

A mountain of queer looking ore found in Lane county, Oregon, several years ago, has turned out to be one of the biggest quicksilver deposits in the United States. The surrounding country is farm land. Not long ago the farmers found the ore in question to be cinnabar, from which quicksilver is derived. They bored three tunnels, all running through pure cinnabar ore. Recently they sold the mine for \$45,000 to Tacoma and Port Townsend men, who will erect a smelter up in it.

A twenty per cent reduction on all clothing in the house. Biggest bargains of the year. E. Deutser, the one price reliable clothier.

Miss Francis of Yale.

The largest audience of the season greeted "Miss Francis of Yale," and the company fully justified all the nice things which have been said about them. It is a rollicking farce company sure enough, and by far the best entertainment of the season.

A Recital.

The Iowa Wolf Hunt.

The wolf hunt mentioned in our issue of the 16th instant will take place next Wednesday, January 25, and all parties wishing to participate will please write R. M. Richmond at Winnie within the next three days.

The territory to be surrounded will be as follows: The northeast corner will be at the southwest corner of Chas. Peterson's section No. 74, being about three miles northwest of Hampshire. The southeast corner will be about three miles south of Winnie where the Gulf and Interstate railway crosses the south line of section No. 75. The southwest corner will be about three miles east of the Chas. Wilcox league, near the southwest corner of section 58. The northwest corner will be near the southwest corner of section 20 at the northeast corner of the Andrew Weaver league, thus taking in a territory about ten miles square.

Following are the names of the captains thus far arranged: Richmond's ranch: C. J. Lenander, John Evesser, Major Nolte, Plummer, Thieking, Sandy, Winnie: Captains Carl, Guy, Danner, Parker, Scott, Sterling, Hampshire: Captains Caruthers, Webb, Hampshire, Arceneaux, High Island: Captains McCormick and Luke. Double Bayou: Captains Jackson, Chas. Wilcox, Sterling, Anaheim: Captain D. Wilcox, Turtle Bayou: Captains Monroe White and Taylor White. Beaumont: Mally Eastham.

Mrs. C. A. Gilbert, mother of John N. Gilbert, has been very sick with the grippe for the past few days, but is improving now.

Representative Dies has introduced a bill which provides for accepting warrants in payment of taxes. We are not aware of the full scope of the bill, but the principle is a good one and would make some of the Jefferson county scrip that is now practically worthless bring at least 90 cents on the dollar. It would benefit the recipients of small amounts of scrip, especially.

U. O. Long, the architect, who made the plans for the handsome residence of Mrs. A. R. Wilson on Sabine Pass avenue, has taken in as a partner in his work R. L. Dickinson, the former foreman of the George Manufacturing company. Mr. Dickinson has had a wide experience in architectural work. He designed some of the most prominent business houses and dwellings in Decatur, Ill., where he lived before coming to Beaumont, besides making plans for several of the finest public parks in the state of Illinois. The firm name will be Long & Dickinson, architects.

BEAUMONT, -- TEXAS.

German science announces that everything needed to make a man weigh 150 pounds can be found in the whites and yolks of 1200 hens' eggs. Reduced to a fluid the average man would yield 98 cubic metres of illuminating gas and hydrogen enough to fill a balloon capable of lifting 155 pounds. The normal human body has in it the iron required to make seven large nails, the fat for fourteen pounds of candles, the carbon for 65 gross of crayons and phosphorus enough for 820,000 matches. Out of it can be obtained, besides, twenty coffee spoons of salt, fifty lumps of sugar and forty-two litres of water.

H. Harris has just returned from the east, where he has been selecting the latest '99 bargains in furniture and household supplies. He will unload a car about the twentieth instant, when his stock will be repete with the best assorted lines of suites, chairs, sideboards, wardrobes and tables money can buy. He bought exceedingly low and will sell accordingly.

For the next fifteen days E. Deutser will include his entire line of mackintoshes in his 20 per cent reduction sale.
